EDUCATION

George Brown College | Toronto, ON

Full Stack & Blockchain Development

Dec 2018 – Dec 2019

Sheridan College | Oakville, ON

Interaction Design

Sep 2014 – Jun 2015

EXPERIENCE

Creative-Emergy

Front-end Developer & Blockchain Developer Intern

Sep 2019 – Present

- Built and designed a new feature for our prediction market application that shows the user's portfolio such as *assets*, *trade positions* and *profit & loss*

Technologies: **React, Redux, NodeJs, Express, SCSS, PostgreSQL**

- Implemented and redesigned the overall user-interface for our application. Created wireframes and prototypes.

Technologies: **Adobe Illustrator, Adobe XD, Sketch, MaterialUI**

DECIEM

Operations Assistant

Nov 2017 – Dec 2018

- Implemented a work management system using Asana in our department to help employees focus and accomplish their tasks more efficiently
- Proactively communicated and coordinated with different branches to resolve any problems or issues that might arise and ensured that the company's operations function in full capacity
- Managed executive staff's calendars, documents and travel arrangements, and adjusted conflicting meetings and events
